# TEXAS EDUCATION AGENCY ACCOUNTABILITY RATING SYSTEM

Districts and campuses receive an overall rating, as well as a rating for each domain.

## A, B, C, or D

Grades are assigned to districts and campuses for overall performance and performance in each domain, including those evaluated under alternative education accountability [AEA] that meet the performance target for that letter grade.

## F

This grade is assigned to districts and campuses for overall performance and for performance in each domain (including AEAs) when the performance target to earn at least a D is not met.

## N/R

This grade is assigned to districts that do not receive a rating – only applied under under certain, specific circumstances.

**NOTE:** To show satisfactory performance, single-campus districts are required to achieve the set performance benchmarks designated for that campus.

To determine a school's accountability rating, the Texas Education Agency examines these three domains:

### STUDENT ACHIEVEMENT

Assesses student achievement in every subject area, covering both standard and alternative evaluations, as well as College, Career, and Military Readiness (CCMR) metrics, and graduation percentages.

### SCHOOL PROGRESS

Analyzes campus and district results in two key aspects: the proportion of students experiencing at least one year of academic growth (or maintaining pace) as determined by STAAR outcomes, and the performance of all students compared to those in districts or schools with proportionate levels of economic disadvantage.

### CLOSING THE GAPS

Utilizes segmented data to highlight variances among racial/ethnic groups, socioeconomic backgrounds, and other influencing factors.
