

**Bring the Closing
to Your Customer!**

VirtualClose

➔ **Ask us about VirtualClose® options to help save your customer time, money and the hassle of traveling.**

VirtualClose, powered by ProofSM, enables agents and sellers to close with the flexibility of Remote Online Notarization (RON) and fully digital closings through one secure, collaborative platform. And the best part is, the closing can be done remotely—from home, work or wherever your customer needs to be.

VirtualClose transactions are ideal for all-cash buyers, sellers who are closing out of the area, dealing with harsh weather or just short on time. We'll provide a seamless, secure and convenient closing experience, and you'll still be able to celebrate with your customer after the final signature!
